
WHITE WAX

interior panelling with smooth and natural finishing

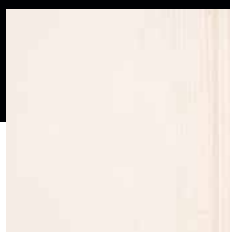

Woodmood White Waxpanelling boards feature slightly translucent Scandinavian-style and bright white finishing. The surface of this board is smooth and matte. These solid wood panelling boards are suitable for indoor use. This panelling is suitable for both new buildings and the renovation of old buildings.

They can be installed horizontally and vertically. The top surface of the panelling is a smooth planed surface, polished with wax. The surface is industrially finished and easy to clean.

For finishing, we use Teknos wax, which has excellent endurance properties and wear resistance. Teknos paints and waxes are manufactured in an environmentally friendly manner.

Tongue-and-groove panelling boards can be installed like parquet, i.e. effectively minimising losses due to different lengths.

- Species: spruce
- Covered area (useful): 2.11 m² (8 pcs) per package
- Surface treatment: smooth, planed, waxed
- Colour: white
- Profile: PTGV/OT, tongue-and-groove
- Dimensions: 12 × 120 mm
- Cover width: 110 mm
- Length: 2400 mm (net length: 2357 mm)
- Environmentally friendly material
- Package dimensions: 96 × 120 × 2400 mm
