WOOD FOR LIFE

## C24 MACHINE STRENGTH GRADED TIMBER

Puidukoda Ltd supplies large range of C24 Timber machine graded according to EN 14081-1:2005+A1:2011 for strength graded timber the most popular sizes are:

47x75mm Fin. 45x70mm

47x100mm Fin. 45x95mm

47x125mm Fin. 45x120mm

47x150mm Fin 45x145mm

47x200mm Fin 45x195mm

These can be supplied treated or untreated, our main markets are Estonia, UK, Poland, Czech, Holland, and Belgium. Our C24 timber can be identified due to the great visual appearance from mainly slow grown Nordic spruce. Our goods are delivered to various markets and can be easily identified with the DOP or CE Mark on the Packaging, due to the visual appearance most of our C24 is delivered throughout Europe without individual piece stamping, we can supply individual piece stamped C24 on request.

Download our compliance documentation here: [CE certificates and declarations of performance](#) .

Please contact our Sales Team or your local Distributors for more information.
